28 June 2022 – Broad Arrow Auctions is delighted to announce the consignment of the Fleischman Collection to the upcoming Monterey Jet Center Auction this 18 August in Monterey, California. The Collection of 28 motor cars will be largely offered entirely without reserve and represents the passion of longtime owner and enthusiast Mr. William “Bill” Fleischman. The Fleischman Collection is a superb offering that combines some of the very best in post war sports and grand touring cars, while expertly capturing the model lineage and evolution of manufacturers such as Ferrari, Porsche, Ford and Mercedes-Benz to name a few.

Commenting on the consignment and forthcoming sale of his collection, Bill Fleischman said, *“Arriving at the decision to sell my collection of cars was not easy. They have been part of my life and my family’s life for decades. However, for me personally, the time has come, and I want to see other collectors and enthusiasts enjoy these special examples just as I have. I’ve had the pleasure of knowing and working with David Swig and members of his team for many years and I know he shares in my understanding of what these cars truly represent as enthusiast examples. What makes most car collectors unique is their appreciation for the details in each car they acquire, and I look forward to sharing those unique details and stories this August in Monterey.”*

Mr. Fleischman has been long regarded as having one of Southern California’s finest collections of post war sports cars and has spent the last three decades assembling the collection you see today. After graduating from the School of Law at UCLA, Mr. Fleischman created his own private law practice, and for years has served on a multitude of committees including the Judicial Nominees Evaluation Committee which assists the governor in appointing judges to all levels of the California state court system. Further, in 1980 Bill created W/F Investment Corp. that he has led as CEO ever since. Bill continues to be active in various educational, charitable, and political endeavors. He currently serves on the Finance Committee of Cedars-Sinai Medical Center, is the President of the Holmby Hills Homeowners Association, in addition to being a member of the Board of Directors of the Gardena Police Foundation.

David Swig, Partner and Senior Car Specialist said, *"I have had the pleasure of working with Bill for many years and throughout that time I have seen the collection grow little by little to what it is today. I love that Bill has approached his collection and the act of collecting with both serious thought and consideration together with a real passion for the automobiles. It's important to recognize that each car was purchased with a specific reason, and each holds a special place within the collection. On behalf of myself and all my colleagues at Broad Arrow, we are simply thrilled to be representing the Fleischman Collection at our inaugural Monterey Jet Center auction."*
